## KRUGER TO UNCLE SAM

Files a Protest Against the Sale of Munitions of War to the English.

## COMPLAINT PROVES OF NO AVAIL.

Secretary of State Hay Defines the Position of This Government in the Matter — News of the War.

Washington, Dec. 22.—President Kruger's government has formally protested to Secretary Hay against the sale of munitions of war by American manufacturers and merchants to the British government. This protest was designed to prevent the British government from obtaining much needed war supplies, but it has proved of no avail.

It is said Secretary Hay has sent a reply to the Boer government reiterating the neutrality of the United States in the present war and declaring that American citizens, in trading with both belligerents, violate no neutrality obligation. It is also said the authorities have information showing the Boer government has purchased supplies in the United States.

The position of this government in the matter of trading with belligerents have been since its foundation that its citizens have the right to trade with the contending belligerents.

## CAN HOLD OUT.

Report in Circulation Regarding Besieged Ladysmith.

London, Dec. 22.—The only news from South Africa of the slightest importance is the report of Ladysmith's ability to hold out for some time to come, and a message from General Methuen permits the assumption that his communications have not been cut.

General Methuen's complaint about the rudeness of his opponent is the latest surprise of this surprising war, and judging from the tone of some of the comments General Methuen's perverseness is more distasteful to many people in Great Britain than his continued silence would have been.

There is no diminution of enthusiasm among the volunteers. All kinds of offers are reaching Lord Chesham, who is to command the mounted volunteer force. Members of the stock exchange have already promised 100 horses from their stables and an offer of an Irish contingent, 115 hunting men, was accepted.

A war office dispatch from Pietermaritzburg, Natal, gives a list of casualties, Dec. 18, of seven men killed and 14 wounded, all non-commissioned officers and men. The names of the regiments concerned indicate a hitherto unrecorded sortie from Ladysmith on that date.

General Buller's list of casualties at Colenso, just published, shows that 143 were killed, 746 wounded and 227 missing.

## Boers' Source of Supply.

Public attention is directed to the question of the possibility of the Boers' importing food, munitions of war and recruits by way of the Portuguese port of Lourenzo Marquese. A Delagoa bay merchant displayed many sidelights which bear directly upon the present war. He said when the war commenced the Portuguese in Delagoa bay, like everybody else, considered victory a dead certainty for the English and, therefore, they at first put a certain curb upon the Boer importation of arms, recruits, etc. But since the English reversed all that has been changed. They have turned round and are entirely against the English.

"Instead of helping the English in Delagoa bay," said the merchant, "they have made that port a base of supplies for the Boers. Food, munitions and recruits are brought in almost openly. Arms are concealed in the lowest parts of the ship and covered over with tons of stuff. Examine such ships out at sea? Why, it would take three weeks to examine them properly. The bills of lading, of course, are all cooked. As for the recruits, they come in the same ships as passengers, waiters or sailors, it does not matter how."

Philadelphia, Dec. 22.—Major General Nelson A. Miles, in expressing his opinion regarding the South African war, said: "The struggle between the British and Boers is a very serious war. There have been some severe losses and I believe there will be serious encounters before it is ended. As to the probable results I of course can not predict. If the British are defeated it is likely to involve Europe in serious complications. As to the tactics of the contending armies, both seem to be what is termed 'open order' methods."

## KENTUCKY LEGISLATURE.

Anti-Goebelites to Show Their Hand When the Contest is Voted On.  
Frankfort, Ky., Dec. 22.—The delay on the part of Goebel and Beckham in serving notices of contest against Governor Taylor and Lieutenant Governor Marshall leaves anti-Goebel elements in doubt as to the purpose of the contestants. The time for taking depositions prior to the meeting of the legislature expired Thursday, only four witnesses having given testimony regarding the election in the contested counties. The contest committee, however, have power to send for persons and papers if it so desires.

The anti-Goebel leaders will have an informal conference at Louisville during the holidays to decide whether they will make a fight to organize the two houses of the legislature. They claim to have enough votes to organize the senate, but a majority of the leaders seem to oppose the fusion organization, preferring not to show their strength until the contests are voted on.

No More "Wild West" Indians.  
Washington, Dec. 22.—"There will be no more Indians permitted to leave their reservations for wild west exhibition purposes," said Commissioner of Indian Affairs Jones. "They can not secure the consent of the Indian bureau for their exhibition save it be along the lines showing the progress of Indian education. The day of the department's permitting Indians to be let for wild west shows and such affairs is past. It demoralizes the Indians, many of whom would dress in citizen's clothes and otherwise conform to more civilized ways but for the dollars and cents there is in continuing in their customs."

## Refrigerator for Troops.

San Francisco, Dec. 22.—A large refrigerating plant is soon to be erected in Manilla by the United States under the direction of Major L. S. Poudz of the quartermaster's department. The cooling room will be large enough to contain at once 5,000 beesves, 7,500 sheep and 100 tons each of salt meats, butter, eggs and vegetables, enough to supply the American army in the Philippines for some time. In addition to this the plant will produce 50 tons of ice and 6,000 gallons of distilled water every day.

## War on Christianity.

Seattle, Wash., Dec. 22.—W. W. Simpson and A. W. Lagerquist, of the Christian and Military alliance of New York, arrived here from Thibet. Mr. Simpson says the mission at Paongan was completely demolished by armed natives headed by Buddhist priests.

After three years' work not a single convert to Christianity has been obtained. The Buddhist priests, owing to China's internal troubles, are in absolute control and will make physical war on the introduction of Christianity.

## Foraker's Statement.

Washington, Dec. 22.—Senator Foraker, in answer to the statements concerning the authorship of the gold plank of the Republican platform of 1896, said: "The point in issue was whether or not Mr. Kohlsaat drafted the gold plank and forced its adoption upon the committee. These estimates show that he had nothing whatever to do with the framing of that plank except in common with other reports and refute absolutely his claim of authorship."

## Officially Confirmed.

Colon, Dec. 22.—Official advices has been received from Venezuela that the government troops in that republic completely defeated the rebel forces under General Hernandez on Dec. 14. General Hernandez fled. It is believed that many prisoners were taken and that a large quantity of ammunition was seized. Port Maracaibo has been officially declared open to commerce and the Venezuelan revolution is considered at an end.

## To Develop Wireless Telegraphy.

Washington, Dec. 22.—Rear Admiral Bradford has asked authority from the navy department to establish a bureau at the naval training station for the development of a naval system of wireless telegraphy. It is proposed to detail several officers having high electrical knowledge at this station and to furnish facilities for study and experiment in the belief that something better than Marconi's apparatus may be devised.

## Trainmen Caught.

Buffalo, Dec. 22.—William Lanigan, an engineer of the Lackawanna road, was killed and his fireman, Herman Schults, probably fatally injured in a collision between a passenger train on the Buffalo and Southwestern road and an engine of the Lackawanna at the junction of the two roads in the suburbs of this city. The passengers on the Southwestern train were badly shaken up.

## TO THE GREAT BEYOND

Passes the Gentle Spirit of Evangelist Dwight L. Moody.

## HEART DISEASE CAUSED HIS DEATH.

Stricken in the West a Month Ago, the Famous Preacher Never Rallied—Close of Eventful Career.

East Northfield, Mass., Dec. 22.—Dwight L. Moody, the famous evangelist, died at noon.

It was not expected Thursday by the members of Moody's family and immediate circle of friends that death would be the result of his illness. The cause of death was a general breaking down due to overwork. Mr. Moody's heart had been weak for a long time

DWIGHT L. MOODY.

and exertions put forth in connections with meetings in the last month brought on a collapse from which he failed to rally.

The evangelist broke down in Kansas City, Mo., where he was holding services about a month ago and the seriousness of his condition was so apparent to the physicians who were called to attend him that they forced him to abandon his tour and return to his home with all possible speed.

After he reached Northfield eminent physicians were consulted and everything was done to preserve life. A bulletin issued last week communicated the tidings to the public that Mr. Moody was very ill, but that a little improvement was noticed. This week the patient showed a steady gain until Thursday when he showed symptoms of nervousness accompanied by weakness which caused the family much anxiety.

Friday morning Mr. Moody called his wife and children, telling them that the end was not far off. The family remained close by the bedside all the forenoon. The evangelist was almost free from pain and occasionally he talked with apparent ease. About the last words he was heard to utter were: "I have always been an ambitious man, not to lay up wealth, but to find work to do." Just before 12 o'clock the watchers saw that the end was approaching and exactly at noon the great preacher passed away.

## Fight With Bandits.

New Paris, Ind., Dec. 22.—An unsuccessful attempt was made to rob the office of William Sharp, banker and grain buyer. A heavy charge of nitro-glycerine was exploded on the safe which contained a large sum of money. The outer door of the safe came off, but citizens, aroused by the shock, rushed to the building and drove away the burglars, five in number, before they could secure any plunder. A running fight was kept up to the outskirts of town, but none of the shots took effect and the burglars escaped.

## Land Grant Opinions.

Washington, Dec. 22.—The United States supreme court rendered opinions in two cases involving private land grants in New Mexico, both opinions being by Judge Peckham. The first case was the claim of S. Endicott Peabody in the Vallecito grant of 114,000 acres near Ojo Caliente, and the other J. Francisco Chavez to a grant of 5,000 acres in Valencia county, near Torreon. The opinion handed down today affirms the opinion of the lower court and is adverse to the claimants.

Alleged to Have Been Cut and Carried Off by Junk Dealers.

Cincinnati, Dec. 22.—Anthony F. Titz and Vlard Ferdensky were arrested on the charge of grand larceny. They are held for cutting the wires of the Postal and Western Union Telegraph companies. Both are junk dealers and it is claimed that they have disposed of large quantities of wire. Wire cutting has been going on in the outskirts of this city for months and the telegraph companies offered a reward of \$1,500 each for the apprehension of the guilty parties.

This reward has caused the detectives and other officers to give special attention to the matter and the officials claim they have the parties who have stolen miles of copper wire.

## NEED THE REVENUE.

Why the Classification Committee Boosted the Railway Rates.

## SMALL SHIPPERS AFFECTED MOST.

Testimony Adduced Before the Interstate Commerce Commission. Ohio Men Present Letter a Monster Petition.

Washington, Dec. 22.—The hearing before the interstate commerce commission called on account of complaints made by shippers against the proposed new classification of freight by railroads operating under the "official classification," was resumed.

By agreement, Mr. Frank Harriott, general traffic manager of the Erie railroad, and a member of the "official classification committee," went on the witness stand to testify as to the new classification. He reiterated Mr. Gill's statement of Thursday that the new classification was adopted because the railroads absolutely needed the increased revenues. On many carload rates no advance, it was felt by the committee, could be made, but it was felt that on short hauls the less than carload lots could afford to pay added rates. This arrangement would enable shippers to take advantage of carload rates to a general distribution point, the railroads there getting some advantage from added rates on the short hauls from distributing points.

The classification committee did not consider the market prices of articles on which the classification was raised. Mr. Harriott said the controlling reason in raising the classification was the evident necessity for more revenue and this was deemed the best way to get it. So far as was practicable the committee and the railroads were ready and anxious to remedy so far as possible any injustice that might exist in the old classification. He said it would be necessary for the 60 odd roads using the official classification to follow not only the classification but also to maintain existing commodity rates in order to obtain additional revenues.

Inquiries developed the admission by Mr. Harriott that on the average miscellaneous cars carrying articles paying less than carload rates were being more heavily loaded than heretofore, that the earnings on that class of traffic were greater.

It developed at this point that a meeting of the shippers and those representing their interests, Attorney General F. S. Monnett of Ohio, Hon. J. H. Bromwell and Mr. Mortimer Matthews of Cincinnati had been appointed to present to the committee the action of the shippers. Mr. Monnett presented a set of resolutions adopted by the commercial interests in directing attention to testimony adduced at the present hearing, showing it was maintained, discriminations by the railroads against the small shippers in favor of the large shippers and to the fact that the railroads had declined to extend the time for the new classification to go into effect. These resolutions were supplemented by a petition by a large majority of the shippers in attendance upon the hearing asking that the committee lay the testimony before the attorney general of the United States with a view to have him bring action against the railroads to prevent the new classification from becoming effective on Jan. 1, 1900.

He was prominent in politics.

THE COLORADO DEMOCRAT writes to remark that the worst enemies of the Hanna administration will not claim that it ever betrayed a "trust."

The Vanceburg Sun wants Judge Pugh sent back to Congress again. Of course the good-natured gentleman wouldn't think for a moment of such a thing. There are too many other aspirants in the Republican ranks.

An East Liverpool firm has received inquiry for 75 car loads of sewer pipe for India. Still, there are Republicans who imagine that a big tariff on sewer pipe must be maintained to keep out the pauper stuff made in England.

"The war against the Boers," says Andrew Carnegie, "is most infamous and unjust, and it was brought about by England's lust for domain, and is on a par with our attack on the Philippines. These two attacks are a disgrace to both branches of our race."

The tin plate trust, during its brief year of existence, has increased the price of tin plate from \$2.25 to \$4.25 per box, an increase of 89 per cent. Wages have increased but 15 per cent., hundreds of traveling salesmen have been thrown out of positions, and in the past six weeks thousands of men have been thrown out of employment by the closing of mills.—Exchange.

But Mark Hanna, dictator and boss of the Republican party, has the effrontery and superlative gall to tell the American people that trusts are "beneficent institutions."

## TO THE PUBLIC.

### Address of Democratic Committee in Regard to the Contest.

### Action of the State Board of Election Commissioners Makes the Duty a Plain One.

The address of the Democratic Committee of the State giving the reason for the contests inaugurated by Senator Goebel and other candidates on the Democratic ticket was made public Thursday night. The address is signed by former Senator Blackburn, Chairman of the State Campaign Committee; Chairman Allie Young, of the State Central and State Executive Committees, and all of the members of the bodies respectively. The address in full is as follows:

The Democratic party of Kentucky, through its several State committees, has unanimously declared that the best interests of the party, as well as justice, demands that contests shall be made by every candidate on the Democratic ticket for the respective offices to which they were nominated. The committees feel that it is proper that they should, in a concise form, state the grounds upon which they base their action.

The State Board of Election Commissioners, at its recent session, issued certificates of election to all of the Republican candidates for the State offices, but the board expressly declared in the opinion that it rendered that it acted simply as a canvassing board, without power or authority, as it construed the law, to inquire into the legality or validity of any contested votes. The board went further and in substance expressed the opinion that, if clothed with the authority to go behind the returns and determine the matters in contention, the certificates of election would not have been issued to the parties who received them.

We feel that in the light of the action of this board the Democratic party can not do less than carry its contention to the tribunals created by law for its determination.

The grounds upon which this contest is based consist of the protest against the use of tissue ballots in many of the overwhelmingly Republican counties of the State. The use of these ballots is not only in violation of the letter of the law, but is in utter and open defiance of the spirit of the law, and the use of these ballots furnishes, not prima facie, but conclusive evidence of purposeful fraud.

Another ground of contest is because of the plain violation and defiance of the law by the late Republican Governor of the State, who, whilst actively engaged in the making of stump speeches and the prosecution of a partisan political canvas, ordered out the military, and, in violation of both law and precedent, assumed personal command of the troops in the metropolis of the State, parading the streets of Louisville on the day of the election with his soldiers and Gatling guns, invading the voting booths and forcing them into, against the protest of the lawfully appointed election officers, pretended inspectors and challengers, who, the highest court of the State has decided, had no lawful right to be present.

The issuance of the certificates of election to the Republican candidates is contested upon the further ground that both a Federal and a State Judge, without warrant of law and in defiance of every prompting of fair dealing and decency, interfered with the holding of the State election; the one by menacing charges to a grand jury and by the employment of Deputy United States Marshals; and the other by issuing every man-damus and injunction asked for by the Republican party, which judicial acts have been declared by the supreme judicial tribunal of the State to have been unlawful.

Another ground is the use in the interest of the Republican party of an immense corruption fund contributed by the most powerful railroad corporation of the Commonwealth, whereby many thousands of votes were bought against the Democratic party and its candidates, because that party in the platform adopted in its State convention dared to advocate measures of reform demanded by people of the Commonwealth.

Attention is called to the fact that, although the most heated political campaign that ever occurred in the Commonwealth preceded the recent elect, yet over ten thousand legally registered Democratic voters failed to vote in the city of Louisville alone. The fact can only be accounted for by the unlawful use of the military power of the Commonwealth by the Republican Governor, and by the unlawful use of the judicial power by a partisan judiciary, whereby wholesale intimidation was effected.

These are the principal grounds upon which the Democracy of Kentucky rests the contests that it has declared shall be instituted. If the law requiring all elections in this State to be held by secret ballot is to be openly and flagrantly defied in Republican counties and Republican districts, and if elections are to be determined by the counting of votes so given, then we have reached the end of free and fair elections in Kentucky. If the future of our people is to be determined with the military arm of the State dominating the citizen in the deposit of his ballot, then elections have become worse than a farce and made simply the prelude to a tragedy in which the last semblance of individual liberty and popular government is to be sacrificed.

There can be no greater menace to popular rights and the freedom of the citizen than the employment of the military arm of the Government for the furtherance of partisan purposes, unless it be the more insidious and cowardly practices employed in the recent election by both Federal and State Judges at the direction of one of the parties to the contest.

Upon no conceivable ground can a Federal Judge either justly, excuse or palliate his interference in an election for State officers only. Whilst the action of Judge Toncy, by decision of the Court of Appeals, is stripped of every semblance of excuse and left in its native deformity to be condemned, rebuked and denounced by the people who were its victims, no more important question confronts the people of the Commonwealth than the question whether a great corporation, owned not in Kentucky, not in the United States, but in Europe, can buy an election and thus control the making, construction and execution of the laws. Even now the hirings of this corporation boast that it will buy control of the General Assembly of the Commonwealth and thereby prevent the enactment of laws the people desire, and prevent the Democratic candidates from obtaining possession of the offices to which they were duly elected.

Both before and since the election of Novem-

ber 7, 1899, the Republican party has continuously employed threats of violence and practice of intimidation; nor has it even desisted yet.

To all this threatening the Democracy has replied that it would stand upon the law; that it would carry its contention to the tribunals which the law has established for their decision, and to the verdict of these tribunals would it bow in submission.

If the Board of Election Commissioners had no authority to pass upon the question at issue (as it declared it had not) we simply propose to go to those who have this authority and abide by the judgment that may be rendered. What the law shall declare to be ours we claim. We ask no more; we will take no less. Should the practices herein complained of pass without protest the Presidential election of next year and other elections hereafter held within the limits of Kentucky would fail to afford an opportunity to the people of the State to express their sentiments at the polls.

If the most important rights of the citizen are to survive in Kentucky, the laws governing elections must be fairly enforced; Judges must be taught that their judicial powers are not to be exercised upon the demand and in the interest of either a political party or a corporation to which they may owe an allegiance even superior to that which they owe to the law; the great corporate monopolies must be taught that elections cannot be bought by them, and Governors must be made to know that in times of profound peace the law of the Commonwealth is not to be brushed aside by the bayonet.

Your committees are not unaware of the fact that the contests now proposed to be inaugurated should not be entered upon for light or trivial reasons; that considerations of a personal or partisanship character should be ignored in deciding upon so grave and important step; that the passions usually aroused in a heated campaign should be given a proper cooling time, and that only considerations of an overwhelming public necessity should be allowed to control. We believe these conditions have been observed. Not willing to trust our own judgments in a matter so profoundly affecting the interests of the State, we summoned in joint council with us a large number of the wisest and most conservative citizens from all parts of the State.

It was the unanimous verdict of these gentlemen that a blow had been struck at the very vitals of free government by the methods and practices enumerated, and that every consideration that can impel free men to act for the protection of their most sacred rights demands that the foul wrongs inflicted on the State shall be redressed through the agencies appointed by law. In the proceedings to accomplish this end it is but just to say that the ambition of no man or candidate has been considered; the situation rises above the individual and becomes one of great peril to the citizenship of the whole State, and the candidates of the Democratic party, in obedience to the supreme duty of the hour, are used merely as the instruments by which these wrongs may be rectified and the dignity and honor of our State vindicated.

These are the reasons that have moved your committee to the inauguration of these contests, and we confidently expect the Democracy of Kentucky to vindicate the action we have taken.

All other remedies and doctors could give her no help, but she says of this royal cure: "It soon removed the pain in my chest and I now can sleep soundly, something I can scarcely remember doing before. Upon no conceivable ground can a Federal Judge either justly, excuse or palliate his interference in an election for State officers only. Whilst the action of Judge Toncy, by decision of the Court of Appeals, is stripped of every semblance of excuse and left in its native deformity to be condemned, rebuked and denounced by the people who were its victims, no more important question confronts the people of the Commonwealth than the question whether a great corporation, owned not in Kentucky, not in the United States, but in Europe, can buy an election and thus control the making, construction and execution of the laws. Even now the hirings of this corporation boast that it will buy control of the General Assembly of the Commonwealth and thereby prevent the enactment of laws the people desire, and prevent the Democratic candidates from obtaining possession of the offices to which they were duly elected.

### ENJOYABLE AFFAIR.

A Muscale and Six O'clock Tea at the Home of Mr. and Mrs. T. P. Degman Wednesday.

A brilliant social event occurred at the home of Mr. and Mrs. T. P. Degman Wednesday in the nature of a six o'clock dinner party, followed by a muscale. Forty invitations were sent out. At the appointed hour the hostess led the way to the dining-room, where a five-course dinner was served. The table was beautiful with its cut glass and silver.

The music was excellent. Prof. Curran, of Concord; Miss Rena Mae Corryell, of Plumville; Miss Ellie Lantz, of Sand Hill, and Messrs. Bowman and Thompson, of Tollesboro, rendered some fine instrumental selections.

In the receiving line were: Mr. and Mrs. T. P. Degman, Mr. and Mrs. T. O. Brooke, Mr. R. B. Cross and Mrs. Ida McDonald. The ladies all looked beautiful in their evening costumes.

The banquet was in every way a success and the guests took their departure at a late hour, after expressing their thanks for the pleasant evening they had enjoyed.

Pork Packing.

[Cincinnati Free Current, December 21.]

There is a continued deficiency in the marketing of hogs compared with the exceptionally high record a year ago.

The Western slaughtering has been 570,000, compared with 605,000 the preceding week. For corresponding time last year the number was 770,000. From November 1st the total is 3,635,000, against 4,495,000 a year ago—a decrease of 830,000, or 18½ per cent.

In most cases the quality of current marketings is good, there being some instances of falling off in weight, indicating offerings of young and unfinished stock. Prices at the close average slightly higher than a week ago, and 70c. per 100 pounds higher than a year ago.

Putting food into a diseased stomach is like putting money into a pocket with holes. The money is lost. All its value goes for nothing. When the stomach is diseased, with the allied organs of digestion and nutrition, the food which is put into it is largely lost. The nutrient is not extracted from it. The body is weak and the blood impoverished.

The pocket can be mended. The blood can be cured. That sterling medicine for the stomach and blood, Doctor Pere's Golden Medical Discovery, acts with peculiar promptness and power on the organs of digestion and nutrition. It is a positive cure for almost all disorders of these organs, and cures also such diseases of the heart, blood, liver and other organs, as have their cause in a weak or diseased condition of the stomach.

All my oysters are direct from first hands from Baltimore. John O'KEEFE.

Dover, Del., Dec. 22.—Dr. T. E. Neale, in charge of the Delaware college agricultural station, demonstrated to the Farmers' Institute the importance of raising sugar in this state. Dr. Neale tried experiments on three farms with success.

## An Editor's Troubles.

[New York Herald.]

Editors have their troubles. One of these men who presides over the destinies of a Western newspaper is mourning the loss of two subscribers. No. 1 wrote asking how to raise his twins safely, while the other wanted to know how he might rid his orchard of grasshoppers. The answers went forward by mail, but by accident the editor put them into the wrong envelopes, so that the man with the twins received this answer:

"Cover them carefully with straw and set fire to it, and then the little pests, after jumping in the flames for a few minutes, will be speedily settled."

And the man with the grasshoppers was told to "give castor oil and rub their gums with a bone."

## Robbed the Grave.

A startling incident, of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately a friend advised trying Electric Bitters, and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks and am now a well man. I know they saved my life and robbed the grave of another victim." No one should fail to try them. Only 50c. a bottle at J. J. Wood & Son's drug store.

**Streetcar Interests Combined.**

New York, Dec. 22.—All the street railway interests in the city of Havana were consolidated at a meeting in the office of the treasurer of the Havana Electric Railway company, thus ending a contest begun more than a year ago.

Washington, Dec. 22.—According to official advices received by Assistant Secretary Melikjohn of the war department a band of counterfeiters has started operations in Cuba, but to what extent is not disclosed. The officials of the government succeeded in locating their plant and managed to secure a set of plates intended for the printing of United States currency of the denominations of \$5, \$10 and \$20.

## Globe Bank Failure.

Boston, Dec. 22.—Receiver Wing and President H. H. Stevens, of the Globe bank, which went into the hands of a receiver, declined to say anything about the situation. There was no unusual scene around the bank, although a number of out-of-town customers who came to draw money for Christmas, were considerably upset by the information that the bank was closed.

## Churchill Safe.

London, Dec. 22.—Lady Randolph Churchill has received a cable dispatch from her son, Winston Churchill, who was captured by the Boers in Natal and taken to Pretoria, and whose escape from there was announced Dec. 14, saying he had arrived safely at Delagoa bay.

## Mines In Operation.
